## ***Summer Holiday Homework-A Journey of Learning and Fun***

**Dear Students,**

As the summer holidays approach, I know many of you are looking forward to a well-deserved break. Summer is a time for relaxation, exploration, and making memories with family and friends. It's also a great opportunity to keep your minds active and engaged in fun and meaningful ways.

**\*Balance Work and Play \*Explore Your Interests\*: Connect with family and friends, \*Be Creative\*:** Remember, the goal of summer homework is to keep you engaged and prepared for the upcoming school year. Have fun with it and enjoy your summer break. I look forward to hearing about your adventure and seeing the amazing work you create when we return to school.

***Wishing you a fantastic summer vacation filled with joy, learning, and new experiences!***

## BIOLOGY

As the Investigations are more open-ended than practical exercises involving a search to understand the unknown and begins with a question or a hypothesis. You are not instructed exactly what to do, but are given only general guidance. These give you more opportunity to plan your work.

You are required to write an Investigatory report. Format for the same is mention below. Excel sheet will be shared for the topics.

**Format for writing a report, such as given below, can be followed.**

**Title of the investigatory project:** Write the title of the project, for example, 'Inheritance pattern of eye colour'.

**Objectives:** Express as clearly as possible the effect of one variable that the experiment is designed to investigate.

**Materials needed:** This might be just a list, or a diagram if a particular piece of apparatus was used.

**Method:** Describe the procedure stepwise including the precautions taken, if any.

**Result:** A suitable chart or table for recording and organising your readings or measurements should be made out before you start the experiment.

**Analysis and interpretation:** Observation data are factual, and may not be as expected by you.

**Discussion:** Discuss briefly the implication of your results and suggest extensions of any kind that can be undertaken.

**Conclusion:** In view of the results obtained and related work done on the topic of the project, write conclusion briefly.

**References:** Any work related to the project which you have come across through books/articles or any other sources would be written as reference, for example: Michael Michalco (2001), Cracking Creativity, Berkeley, Ten Speed Press.
